Rick, I've had a sudden doctors appointment from 10-1130 tomorrow. Can we reschedule to 12-1?

Tiffany

Tiffany,

Good afternoon! We just had a meeting with Kerry Dixon today. We look forward to meeting with you tomorrow at 10:30. I assume that we are meeting at the address listed under your signature in your email?

We will be able to answer all your questions and have a better process moving forward.

Kind regards,

Rick Farrell

Any update on the last two weeks of installations? Also have all remaining invoices been sent?

Tiffany,

We'll get you the updates asap! I can assure you that we're all over this project.

We will be at your office on the 29th at 10:30am.

Thank you for your patience as I transition into the team.

**Subject:** FW: Ecowater Recap

Rick,

I appreciate the follow up email. I wanted to make share my email with Jim after our last in person meeting in December. I outlined our information needs and my expectations for this contract moving forward. The subcontractor, KSK mechanical, has provided all requested information. However I have not received any updates regarding our last set of installations.

I am free 10:30 AM to Noon on 1/29/19.

Best,

**Tiffany Delcour**

**Subject:** Ecowater Recap

Jim,

Below is a recap of our discussion this morning. I have listed the immediate information needed and our project management expectations of Ecowater. OPSB will not schedule additional installations past the previously scheduled installations the week Jan 7-11<sup>th</sup>. Once all needed information is provided we will begin to install booster pumps at the schools where filter systems were not connected due to low pressure.

**Immediate Information Needs:**

We have not received updates on the water filter installs at the following campus. We need date of installation and water filter system count.

- Bienville Elementary School
- Langston Hughes Elementary School
- Wheatley Elementary School
- Joseph A. Craig Elementary School
- McDonogh 42 Elementary
- Fisk Howard School

- Audubon School
- Information regarding what systems have been installed but not connected and the reason for not connecting. Please provide in word or excel, not pdf.
  - Today we received information for the following schools; Lake Forest, Bradley, Parkview and Avery Alexander.

**Project Management Expectations:**

- To collect and provide weekly updates on KSK's progress with installing Water filter systems. Including but not limited to date systems were installed and count of installations per school.
- To communicate a recovery schedule for any missed installations.
- To help problem solve for nonfunctional water fountains after systems have been installed.
- To ensure OPSB receives timely information on what filter systems are not connected because of pressure concerns.

Best,

**Tiffany Delcour**
